

## NETCENTS

### CONTRACT INFORMATION

Go to <https://afway.af.mil>

Click on NETCENTS Documents (lower left of screen)

Click on Documents

Select a Contractor – review all information available. Some labor categories and rates are posted on this section; others may have you follow the link to their web site, then select labor categories and rates. If you select a particular contract number to review you may find the labor rates and tables at Attachment 5 of the contract – or Attachment 5 may have the link to their web site for all products and all labor categories.

You may also want to review the FOIA Information tab – it has a lot of information available for contractors there also.

This web site should provide all information that is currently considered releasable; if there is specific information not posted on these sites that a contractor would like to review; please let us help with those requests.
